

## Life. Career. Balance.

### EXPERIENCE IT. ONLY AT SOUTHLAKE.

At Southlake, we've created something special ... A big city hospital that hasn't lost its community heart. A place where teamwork is the norm and new leaders are continually discovered. An environment where you can put your skills to work today, while advancing towards your goals for tomorrow. A collegial workplace focused on achieving work-life balance. If you are committed to excellence, passionate about making a difference, and looking for a place where your career can flourish, come join us.

Southlake has some of the highest staff and physician satisfaction scores in the province. The latest data by NRC Picker confirms that we are providing the premium practice environment that you deserve.

Newmarket is located in York Region, part of the Central LHIN, on the northern edge of the Greater Toronto Area, allowing easy access to city activities as well as a short distance to cottage country and ski resorts. Residents of York Region enjoy access to an array of real estate options and public and private schools, making the area a choice location for many young families.

## CARDIAC SURGEON

Southlake Regional Health Centre is seeking to fill a position for a full-time cardiac surgeon with TAVR experience. The successful applicant would join an existing group of 5 cardiac surgeons sharing a volume of more than 1,100 open cases that is growing annually. Southlake has a rapidly expanding structural heart program including TAVR and MitraClip.

Southlake is a Ministry of Health and Long-Term Care designated and funded Regional Cardiac Program, serving 1.5 million people and 10 hospitals in York Region and North Simcoe Muskoka. Our services are comprehensive, including primary PCI, world firsts in electrophysiology techniques, minimally invasive cardiac surgery and sutureless valves. The cardiac medical staff now includes 5 cardiac surgeons and 23 cardiologists, with groups sub-specializing in interventional, electrophysiology, critical care cardiology, invasive and non-invasive cardiology. In 2018-2019, this high-volume centre performed 1,100 cardiac surgeries, 2,300 angioplasty procedures, 5,500 cardiac catheterizations, 400 ICD implants, 725 cardiac ablation studies, 800 EP studies and over 100 transcatheter aortic valve implantations, and recently launched a MitraClip valve repair program.

The successful candidate must be licensed to practice cardiac surgery in the province of Ontario, Royal College certified and experienced with most aspects of cardiac surgery including revascularization, valve repair and replacement, and aortic surgery. A proven track record with all aspects of TAVR is essential. Specialized training and an interest in aortic disease and surgery would also be assets. There is an opportunity for the successful candidate to assume a leadership role in the structural heart program depending on qualifications and experience. There are opportunities for teaching and clinical research at Southlake and in conjunction with the University of Toronto. Compensation is through fee-for service OHIP billing and MOH on-call stipend.

**To join our dedicated team, please forward a letter of interest, along with your curriculum vitae, to:**

**Michele Skerratt**  
Manager, Medical Affairs  
Southlake Regional Health Centre
