

# Life. Career. Balance.

## EXPERIENCE IT. ONLY AT SOUTHLAKE.

Southlake is building healthy communities through outstanding care, innovative partnerships, and amazing people. We deliver a wide range of healthcare services to the communities of northern York Region and southern Simcoe County. Our advanced regional programs include Cancer Care and Cardiac Care and serve a broader population across the northern GTA and into Simcoe-Muskoka.

Southlake is committed to fostering an inclusive and equal opportunity environment for all applicants. We are dedicated to building a Professional Staff that reflects the diversity of the community in which we live and serve.

Newmarket is located in York Region on the northern edge of the Greater Toronto Area, allowing easy access to city activities as well as a short distance to cottage country and ski resorts. You will enjoy access to an array of real estate options and public and private schools, making the area a choice location for many young families.

## Cardiologist/Electrophysiology

Southlake Regional Health Centre is seeking a Cardiac Electrophysiologist to join our team. Eligible applicants must have completed a two- year fellowship in adult cardiac electrophysiology and have a solid foundation in general cardiology. Interest in research would be an asset. Certification in cardiac electrophysiology through the American Board of Internal Medicine would be a strong asset. The preferred candidate should have proficiency with complex cardiac ablation (atrial fibrillation and ventricular tachycardia); standard ablation and electrophysiology studies; cardiac device implantation including cardiac resynchronization therapy; physiologic pacing. There will be general cardiology call and outpatient clinical work requirements. Any special interests (e.g., amyloid, saroid, cardiac genetics, cardioneuro electrophysiology) is encouraged.

The successful candidate would be joining a dynamic and well-established cardiac electrophysiology program consisting of five other electrophysiologists who are already performing high volumes of complex ablation and device implantation. The program also offers laser and mechanical lead extraction, left atrial appendage occlusion, subcutaneous defibrillator implantation and leadless/physiological pacing. The program is a leader in innovation, training of electrophysiology fellows and active research studies.

Southlake is a Ministry of Health and Long-Term Care designated and funded Regional Cardiac Program, serving 1.5 million people and 10 hospitals in the fast-growing York and North Simcoe Muskoka regions. Southlake's full-time Cardiac Medical Staff includes 5 Cardiac Surgeons and 20 Cardiologists, with groups sub-specializing in Interventional, CTO/CHIP, Transcatheter valve procedures, Electrophysiology, Cardiac Imaging, Invasive and Non-Invasive Cardiology. Southlake is a high-volume center performing over 1300 ablations/EP studies, 800 pacemakers, and 400 implantable defibrillators per year in three state of the art electrophysiology labs.

The successful candidate must hold or be eligible to hold an Independent Practice license with the College of Physicians and Surgeons of Ontario and be Royal College certified.

To join our team, please forward letter of interest to, along with your curriculum vitae to:  
 Deb Green, Medical Affairs Associate  
 Southlake Regional Health Centre  
 596 Davis Drive, Newmarket, ON, L3Y 2P9  
[dgreen@southlakeregional.org](mailto:dgreen@southlakeregional.org)

We thank everyone for their interest; however only those selected for an interview will be contacted.
