

Become an Essential Care Partner

Support patients.
Strengthen Care.
Partner in Care.

Caregivers play an essential role in healing. Essential Care Partners support patients throughout their hospital stay by providing comfort, connection, and practical assistance.

Essential Care Partners may:

- Provide emotional support, comfort, and companionship
- Assist with meals, mobility, or communication
- Work alongside the care team to support a positive care experience

Are you a caregiver supporting a patient and interested in becoming an Essential Care Partner?

Speak with a member of the care team or visit southlake.ca/Essential-Care-Partner for more information.
